

Ventura County Council Day Camp Asst QM

Day Camp Location: _____ **Pack:** _____

Hello, Cub Scout Day Camp Volunteers!
Welcome to another fantastic week of adventure.

Thank you so much for giving up all your valuable time to help in making our Day Camps great! Over the past years, setting-up and breaking down camp has been one of the most strenuous tasks, beating us down before camp even begins. Then, by the end of camp, we have absolutely no energy left and still have to face putting all of our supplies away.

In addition to Adult Staff the week of camp, each Pack will need to send, at least, one (1) person each for camp setup AND take down camp.

Registration will not be accepted, if volunteer positions are not filled.

Setting up camp:

We are hoping to set up camp on the Saturday or Sunday before camp. There are many things we need to do; empty the QM truck, which will allow us, set up tables, easy ups, camp and Den area canopies, archery range, BB gun range, marking the parking lot, filling coolers, buckets and everything else there is to get ready for our campers.

Breaking down camp:

We need to have everything broken down, inventoried and packed away in the QM truck before dark. After we have packed everything we'll need to walk through the area with trash bags gathering every last little piece of trash (Leave no Trace). Then head to "storage facility" to store it for next district or next year.
